Please provide any comments or suggestions regarding advising at EKU.

Text Entry
I am an online student for the first time , I answered these questions with this in mind.
Where I noted that Dr. Paolucci has not discussed with me much about professional standards, careers and such, I would point out that I am just now a sophomore, and these kinds of things just haven't yet become salient. I'm sure he will be happy to talk to me about these thing when the time is right.
NA
I have gone to many advisors and each tell me I have to change my major to achieve what job I want in the future. There has been constant confusion with my entire academic year at EKU and it is very stressful when the staff tosses you around from person to person. I understand one person cannot know everything about every field but I feel like advisors should advise not send a student off to another building in hopes they find the right person to help them.
I have had 3 different advisers in my 4 years at EKU. The advising office is pointless the staff is uneducated and generally unhelpful. If I had not gone out side the advising office for assistance I would not of been able to graduate on time due to there incontinence.
I declared a major at the end of last year. EKU never directed me to an advisor in my department, and the man that replaced my old advisor didn't help me at all. He simply gave me an RAC and told me to get a new advisor.
Dr. Ware is an asset to the department. She is very proactive in figuring out what you want to do with your degree and getting the networking process started. She really makes sure the students are thinking ahead and making sure we have "all our ducks in a row".
Great Advisor.
Very helpful and knowledgeable. As an online student, she is a very valuable resource and promoter of my success.
I had no real need of advising - my plan of study is clear as a senior in the nursing program. I think it would be very beneficial for mandatory advising meetings for underclass student and those who are undecided in their field.
My advisor is great in half of what they do. Whenever we meet face-to-face for scheduling classes for the following semester, they always remember what we have talked about, and do a good job guiding me. I am completely satisfied with that part. However... Whenever I have a question/concern/problem, and I email my advisor, I'm beyond certain I will not get a response. Because of how hard it is to meet face-to-face with an advisor whenever I have a question, I find the fact that I cannot get an email response to be unacceptable...
Formerly my advisor has been Jane Rainey; this audit is a reflection of her advising.
Always great and informative!!!
All the answers to these questions regard only Dr.Spock, no my other advisers (though they do a good job too)
She can be hard to get ahold of to schedule appointment but other than that she is very helpful.
Lakin is a wonderful advisor, she has always answered my questions promptly and thoroughly. Being in a strictly online program limits my face to face interactions with EKU students and staff, but I feel as though I could schedule a meeting with Lakin at anytime.
I do not even know who my advisor is. I also do not know who my admissions counselor is.
Dr. Jensen is the worst advisor and professor I've ever had. She is always unprepared and is never helpful. I was going to have to stay an extra year because of her unless I changed my major. So I changed my major because of her. Also she made me never want to be an FCS teacher because she basically told me that I would never get a job in that field since it's dying. You probably shouldn't tell your advisees that especially about your own field.
She was extremely helpful and reliable and I know I can count on her throughout my college career even as i switch advisors.
Due to EKU policy, I officially "fell through the cracks" and never received the advising that I required to achieve my education goals. Now that I am about to graduate next month, and I am learning all kinds of things about graduate school that I needed to know a year or more ago. EKU should really make it a point to spend 2-3 minutes with students before officially enrolling in classes to see if they’re in the correct program to meet their needs. Had this been EKUs policy, I might already be in graduate school by now.
I don't have any suggestions.
Advising within the OS/OT program is great, but I know people in other programs have struggles!
I have had Joan Miller and Chandra Vigs as advisor as well they did a good job I was very happy with them too.
Very difficult to get in contact with to meet and discuss plans for upcoming semesters. Not very welcoming-- as if I am more of a burden to her schedule
Advisors need to make sure they are aware that if a student has transferred in with an AA/AS that they are gen ed certified. My husband took 2 classes he didn't need because of that issue and luckily my advisor caught that it was a degreeworks error not showing that I was Gen Ed certified.
I am also VERY disappointed with the COE Advising team here at EKU. They or my advisor have hardly helped me with the changing of the education courses here on campus.
I feel that Kristy is an excellent advisor. However, I feel that the Social Work program should be made available in the afternoon for all it's required classes. The reason for this is because I have children and work full time while trying to obtain my Bachelors in Social Work and the current schedule is not compatible for me to be able to graduate. I cannot attend daytime classes with my job and some of the required classes are only offered in the daytime.
He's great!

The advisor could explain the degree works better. It took me over anhour playing with it to find out how to get my degree audit.
